Final I-70 East SDEIS Letter.pdf

Deb,

Wendy suggested that I contact you to find someone who could do a quick review of this new health impacts section to the I-70 East FEIS. I won't know how big a section it will be until I see the cooperating agency review copy of the FEIS on Monday, but don't think it should be too long. I'm attaching a copy of our letter (see comment #12 in the detailed comments). Please let me know if someone can help us out.

Thanks,

Carol

Hi Carol,

I'm not sure if I will have time. I'm pretty wrapped up with the Gold King response and I will be out from the 26-30. Maybe Susan Griffin or Charlie Partridge would be able to review?

Subject: I-70 East EIS

Hi Kristen,

I'm the lead reviewer for the I-70 East EIS, a highly controversial highway project. Yesterday, Tim Russ and Chris Dresser from Air and I attended a cooperating agency meeting. We will receive copies of the preliminary FEIS for a cooperating agency review this coming Monday, Aug 17. We were told yesterday that in response to many public and agency comments, that FHWA/CDOT added a section on impacts to human health. Most of the concern centers on air pollution issues in the EJ neighborhoods of Globeville and Elyria and Swansea on I-70 just east of I-25. It would be helpful to have someone with your background review this new section.

Because we are at the cooperating agency review stage, now is the time that EPA can make the most difference. We certainly did last year and the transportation agencies pretty much followed all of our recommendations by making changes before releasing the supplemental draft EIS to the public. I am attaching our comment letter on the SDEIS; take a look at Comment #12 of the Detailed Comments that relates to health issues.

Will you be able to review this, Kristen? And are you the right person? I would like to have your comments by August 31, but there could be a little flexibility on that deadline.

Thanks,

Carol
